Description:

Product, especially conceived for the sparkle and drying of glassware and crockery with automatic dishwashing machines and tunnel dishwashing machines. Provides a fast and uniform drying. Its content in sequestering agents avoids formation of water droplets and lime scale stains, getting a high sparkling level.

Key Properties:

For the sparkle and drying of crockery and kitchen utensils for dishwashing machines and tunnel dishwashing machines.

Use Instructions:

Depending on the type of dishwasher and water hardness, use 0,2 to 0,5 g of product per litre of water, at rinsing temperatures between 80-90 °C.

REMARK: To get the best results, combine the rinse aid with the corresponding dishwashing detergent, depending on water hardness.

Technical Data:

* PROPERTIES:

Concentrated liquid rinse aid. Drying quickness and uniformity.

* SPECIFICATIONS:

Appearance: Light liquid

Colour: blue

Density : 0.980 + 0.002 Gr/cc.

PH (20°) : 2.7 + 0.5

* COMPOSITION: Non-ionic surfactants. Alcohol. Citric acid.

Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

Security and Handling:
