ENVIRONMENTAL MANAGEMENT

SURFACTANTS BIODEGRADABLE $\geq 90\%$ ACC.TO:
Regulation 648/2004/CE

DESCRIPTION:

A BRAND NEW DISHWASHER EVERY WEEK.

Used weekly, it avoids lime scale deposits, oxidations and typical breakdowns caused by lime and rests of dirtiness. Saves times, work, money and energy, i.e., avoids obstructions, hinders lime deposits increasing water pressure and reducing the energetic consumption and the time needed to heat or cool water. With a simple and economic weekly gesture, you'll remove 90% of typical breakdown causes and it will therefore avoid machine stopping and repairing costs, extending the life of your machine.

KEY PROPERTIES:

Especially suitable to use in dishwashers, dishwashing tunnels, coffee makers, washing machines, etc. and water contact circuits. Diluted into a soaking, it renews the original look of crockery, set of faucets and glass.

USE INSTRUCTIONS:

LIME CLEANING: Once a week, pour the content of one package per each 10 l of water capacity of your machine and make 5 washing cycles empty.

REGENERATE CROCKERY AND SET OF FAUCETS: Mix the content of one package per each 30 l of hot water. Submerge the element to be restored for about 20 minutes. Rinsing needed.

TECHNICAL DATA:

* PROPERTIES:

Concentrated acid detergent. Anti lime action. Contains acids and surfactants of large moisturizing action and controlled foaming.

* SPECIFICATIONS:

Appearance:	Translucent liquid
Colour:	Colourless
Density:	1163 - 1167 kg/m ³
Odour:	Characteristic scented
PH (20º):	<2 - Very Acid

The color of the product may change its hue due to prolonged storage, keeping it subjected to high temperatures or direct exposure to the sun.
