

CLEANING OF SURFACES

Stainless steel and metal polish

Description:

Cleans and polishes surfaces and metal utensils. Thanks to its active foam, it polishes and protects, creating a protective layer against spots, without scratching the surface to be treated.

Key Properties:

Suitable to be used on all type of metal and stainless steel surfaces: door and window mouldings, ovens, extractor hoods, electrical appliances, kitchen utensils, kitchen sinks, lifts, banisters, bathroom utensils...

Use Instructions:

Shake well before use. Pulverize on the surface to be treated, less than 20 cm far. In case of delicate surfaces, apply on a cloth. Let the product act for a few seconds and rub with a cloth until desired brightness is achieved.

Technical Data:

* PROPERTIES:

Cleans, polishes and protects metal surfaces.

* SPECIFICATIONS:

Appearance: Aerosol

Colour: White - Milky

Odour: Characteristic

Density (20°) : 0.880 +/- 0.005 Gc/cc

Vapour Pressure (25°) : 4.5 +/- bar

* COMPOSITION: Solvents, Polishing agents and Surfactants.

Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

Security and Handling:

DANGER. Pressurised container: May burst if heated. Extremely flammable aerosol. Causes serious eye irritation. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Repeated exposure may cause skin dryness or cracking. FOR PROFESSIONAL USE.

Avertissements:

In case of accidental ingestion, please contact the National Toxicology Service.
